

Gantry Leg Enclosure

The Hi-Lux pole mount series of enclosures are specifically designed for installation on poles to withstand vibrations, adverse weather conditions, vandalism and are designed to limit the damage encountered during a collision.

The gantry leg enclosure is designed to TC-2279. These suit VMS and LUMS gantries.

An adjustable depth 60/40 split back panel with a larger top section housing two DIN rails allows easy cable entry and fit off.

Features

- IP56 Rating
- Document Holder
- Three point locking with euro half cylinder
- All welded seams
- Adjustable back panel with rack style mounting
